FOOD SAFETY AND QUALITY POLICY STATEMENT

It is the goal of *Adelphia Seafood* to provide our customers and consumers with products that are safe and of the highest quality. To ensure that our products are safe, we will comply with all government regulations which apply to our products, and we will practice all the principles and guidelines of the *SQF Code*, Hazard Analysis and Critical Control Points (*HACCP*), Good Manufacturing Practices (*GMP*), personal hygiene, food handling, sanitation practices (*SSOP*) and allergen control. To ensure that our products are of the highest quality, we will comply with our customer's product requirements or specifications and with our own formulation, processing, and packaging specifications.

We will continuously provide our employees with the resources, including information and training, which they require to understand and be competent in applying these practices. We will continuously review these practices to identify gaps and communicate to our employees any opportunity to improve our performance to ever higher levels of product safety and quality.

Where improvements to our facility can contribute to ensuring the safety and quality of our products, we will invest in making these improvements.

We will review this policy statement on an annual basis and make the appropriate revisions to the document at the time of review.

Jason Hurleman
President
